**FOR NONPROFITS**

---

# UNTANGLE NG FIREWALL IS THE PERFECT NETWORK SOLUTION FOR NONPROFITS

Untangle NG Firewall simplifies network security with a single, modular software platform designed to fit the evolving needs of your organization. NG Firewall provides a browser-based, responsive and intuitive interface enabling you to quickly gain visibility into the traffic on the network.

## COMPREHENSIVE SECURITY AT THE GATEWAY

Proactively stop malware, hacking attempts, phishing schemes and other threats before they reach users' devices.

## NEXT-GENERATION FILTERING

Get a handle on every rogue application, encrypted web request, malware distribution point, drive-by malvertising attempt, and rash of spam.

## DEEP ANALYSIS AND INSIGHTS

Gain valuable insights from database-driven reports without the need for a separate appliance.

## SUPERIOR CONNECTIVITY & PERFORMANCE

Meet the challenges of a remote workforce, branch offices and guest Wi-Fi. Keep users and data safe regardless of location or level of access. Balance competing priorities, ensure Quality of Service (QoS), and maximize uptime.

# NETWORK SECURITY CHECKLIST FOR NONPROFITS

Nonprofits can take some simple steps to stay ahead of evolving threats and hackers, while also ensuring the network always stays up and running for critical online tools.

## Update Software

Maintaining software updates for all devices is crucial to ensure any vulnerabilities found are swiftly mitigated.

## Define Administrative Control

By preventing staff and volunteers from downloading applications that could house malware, you can minimize the exposure and protect the network.

## Separate Backups

Always have backups of critical data in a separate location. In the event of a malware or ransomware attack, nonprofit organizations can quickly get their data and configurations restored without paying the ransom.

## Separate Network for Volunteer and Staff Devices

By separating the main network from all volunteer and staff devices that you don't control, you can quickly mitigate any issues that may happen on the guest network without impacting overall network performance.

## Threat Intelligence

Utilizing solutions that have built-in threat intelligence engines that proactively protect against unknown and emerging threats is critical to stay protected against hackers and malware.

## Next-generation Firewall

Next-gen firewall solutions provide protection at the gateway in an all-in-one solution that encompasses web content and application filtering, bandwidth shaping, advanced threat protection, and VPN connectivity options.

# UNTANGLE NONPROFIT CASE STUDY

## CEREBRAL PALSY OF NORTH JERSEY

**LOCATION:** Livingston, New Jersey

**INDUSTRY:** Nonprofit

**SIZE:** Over 400 devices across 21 locations

**CHALLENGES:**

- No solution in place
- Required web filtering to block inappropriate sites
- Manage needs of 21 different locations
- Keep costs low

**RESULTS:** Because Untangle offers a range of plug-and-play appliances and cost-effective software solutions, CPNJ was able to deploy and manage the needs of all 21 locations. Using Untangle NG Firewall applications, the team at CPNJ was able to separate the networks for students, teachers and administrators. Full network visibility allows them to manage and block websites and applications before they reach the gateway.

*“Ease-of-use was a deciding factor in our selection process. With Untangle, we are now able to gain full visibility into all of our distributed networks.”*

**- Katie Bochenski | Director of Information Technology**

# PROVIDING POWERFUL AND AFFORDABLE SOLUTIONS

Nonprofits face many of the same challenges as for-profit businesses, such as securing their networks and data while keeping their staff safe and productive. But often, nonprofits have tighter operational budgets and even fewer resources to deal with IT infrastructure, online security, and secure data issues.

To make sure that network security doesn't take a backseat to other budget needs, Untangle provides nonprofit organizations with the same powerful, easy-to-use solutions that it sells to businesses, but with special pricing to fit those tighter budgets.

## SPECIAL PRICING ON UNTANGLE SOFTWARE

**Nonprofit Complete** is available to qualifying not-for-profit institutions, NGOs, private schools and religious organizations. This package contains the same software as NG Firewall Complete, but at a greatly reduced rate.
